

**Old Basing & Lychpit Neighbourhood Plan**  
**Notes of NPT Meeting on November 24, 2015**

**Present:** Peter Bloyce, Vera Riley-shaw, Stephen Durman, Alan Gibbered, Will Sarell, David Whiter, Mark Oszczyk. **Absent:** David Botting

**1 Feedback from Initial Contact with Stakeholders**

AG had contacted Environment Agency but had no response from, and VR-S reported the same with Post Office.

WS had made contact with HCC Highways who had promised to consider the points.

**2 Response to Draft Cycling Strategy**

WS had responded in detail and the comments had been passed to Safer Roads in Old Basing. MO suggested

that the response be used by the Parish Council.

**3 Policy Formulation**

AG & DW were meeting the consultant on November 30 to review evidence and objectives and start the process of

policy formulation with AG, DW, MO & WS. It was agreed to propose January 5 for HOusing & Development (PB &

SD), January 21 for Traffoc & Transport (WS & PB SD & DW) and February 9 for for Community & Heritage (VR-S &

DW). DW cannot attend on January 5 so would want notes from it.

DB would be invited to any meetings he wished to attend.

People had read the Exeter St James Neighbourhood Plan and thought it offered pointers for us. People should

continue to try othe NP policies.

**4 Draft OB & Profile**

DW had forwarded a draft Introduction and Parish Profile and invited comment. The Exeter St James had a less

formal stye than this draft and it would be made more informal/readable.

**5 Evidence Logs & Maps**

DW would meet each sub-chair before meeting the consultant ot run through the evidence.

WS was asked to prepare a map showing rat runs and pinch points on the roads.

Information on current energy ratings was needed if we were to suggest a preference for a developments employing

higher than standard energy efficiency. SD suggested contacting A Molloy of Basingstoke Energy Cooperative and

would forward a link to Basingstoke's website.

#### **6 Income & Expenditure**

There had been no change in this, but we were about to start spending on the consultants.

#### **7 Any Other Items**

PB said the presentations to the Local Plan Inspector were now complete, and there is a possibility that he would not

ask for any substantial changes beyond the 850 units per year change. PB will forward further comment.

#### **8 Next NP Team Meetings**

As there were frequent policy meetings due over the next two months, NP Team Meetings would be on

December 15, 2015 and February 16 2016. Both at the Parish Office 7.30.
