

**Old Basing & Lychpit Neighbourhood Plan**  
**Notes of Consultants' Meeting 3.11.16**

Present: DW, BH

1 – Draft 7

DW handed BH an annotated copy of Draft 7 with comments from DW, AG and WS plus suggested wordings for Housing (P9), Community Areas and Strategic Gap (P10), Topography (P11), Loddon Valley and SOLVE (P13) and grounds for Green Space Designation (P24).

Also handed over were AG's comments on the Loddon Valley and DW's words on OB&L's Relationship with Loddon Valley. BH confirmed that Emma Betteridge was happy with the extended Loddon Valley map as it showed the parish boundary and expressed our views (without policy) on the Loddon Valley.

WS's proposed changes to Traffic & Road Safety Objectives would be checked with LB for inclusion. DW suggested adding "Improvements at Swing Swang Lane roundabout and rail bridge" to P19 improvements to road safety.

DW also handed over a USB with the Maps and Figures and a copy of the Hants Masterplan for SS3.1.

BH asked for clarification of traffic increase on Crown Lane, and the % of responses identifying parking and congestion at the schools.

BH hoped to get Draft 8 out in w/c 7.11.16, and if satisfactory to have the screening document for B&D by the end of the week.

DW asked who should notify landowners of intent to designate green spaces and when. He would also meet EB to discuss maps.

2 – Costs

BH's printer had not come up with a price. Agreed to proceed with Greenhouse Graphics who offered a slightly better price. DW asked for invoices for October and so far in November for grant reporting.
