

Planning and Housing

What does Basingstoke and Deane's Local Plan mean to the Parish?

The emerging local plan will add 100 more dwellings on Basing Road and 450 on the land to the east of Pyotts Hill. This could affect the parish in the following ways:-

- . Generate even more traffic—see the traffic board
- . More school places needed
- . Pressure on the environment, landscape and wildlife
- . Pressure on Social and Community facilities
- . Degradation of parish character and landscape
- . Pressure on the heritage and cultural elements

A neighbourhood plan will give us a voice in the decisions that affect us between now and 2029
