- 4 Speaker**
Our speaker is **SIMON COOPER** author of **THE LIFE OF A CHALK STREAM**

Simon's book records a year in the life of an essentially English waterscape that is home to a vast array of wildlife and natural habitat of the keen angler. Chalk streams are almost exclusive to England and include the River Test and River Loddon.

Simon will talk about the diversity of life that inhabits these waters, the plant and wildlife and we will hear how neglect threatens this habitat and why the fight to save the chalk streams (and in particular the River Loddon) is vital not only for fishermen but for anyone who values the rural landscape.

Simon's talk will be followed by a Q&A Session.
