Speed Indicator Device – Deployment Programme

1. Introduction

Old Basing & Lychpit Parish Council will deploy its Speed Indicator Device (SID) on a monthly rotation across the eight approved sites, once the Hampshire County Council licence is granted. This programme ensures consistent monitoring, supports community safety, and provides a clear operational schedule for the year.

2. Monthly Deployment - SID Rotation Table

Month	Deployment Location
January	Location 1 – Hatch Lane
February	Location 7 – Great Binfields Road (Lamb's Row junction)
March	Location 3 – Crown Lane
April	Location 8 – Great Binfields Road (Great Binfields Crescent)
May	Location 5 – Basing Road (North)
June	Location 6 – Great Binfields Road (Harvest Way Roundabout)
July	Location 10 – Park Lane
August	Location 4 – Basing Road (South)
September	Location 9 – Hatch Lane
October	Location 7 – Great Binfields Road (Lamb's Row junction)
November	Location 11 – Crown Lane
December	Location 12 – Basing Road (North)

3. Operational Notes

- The SID should be moved **once per month**, ideally during the first week.
- Each location receives **regular coverage** throughout the year.
- The annual schedule restarts each January.
- Data downloads (if applicable) should be completed before relocation.
- Any faults or mounting issues should be reported to the Parish Office immediately.

4. Review

This deployment programme will be reviewed annually or sooner if:

- Hampshire County Council requests changes
- New sites are approved
- Data suggests a revised rotation would be beneficial
